SynergERP

MPOWERED B-BBEE COMPLIANCE MANAGEMENT SOFTWARE FOR SAGE CUSTOMERS

With the demand increasing for companies to digitise their B-BBEE compliance management processes, SynergERP has partnered with Mpowered, a leading B-BBEE compliance management software provider, to deliver a simple, proven and integrated B-BBEE solution.

We deliver a solution that is relevant and accessible to companies of all sizes and complexity, and across all industry sectors.

INTEGRATED SAGE AND MPOWERED B-BBEE COMPLIANCE MANAGEMENT SOLUTION

As a result of the SynergERP and Mpowered alliance, our Sage-Mpowered integrated solution enables the automated sharing of confidential employee, training and procurement data from Sage solutions directly into Mpowered's cloud-based B-BBEE compliance calculator and management system.

Data, scorecards and evidence flow securely from Sage into Mpowered's B-BBEE compliance management software. Companies using B-BBEE consultants can give their advisors access to their software account to remotely assist your company through its B-BBEE compliance journey, reducing complexity and saving time and cost.
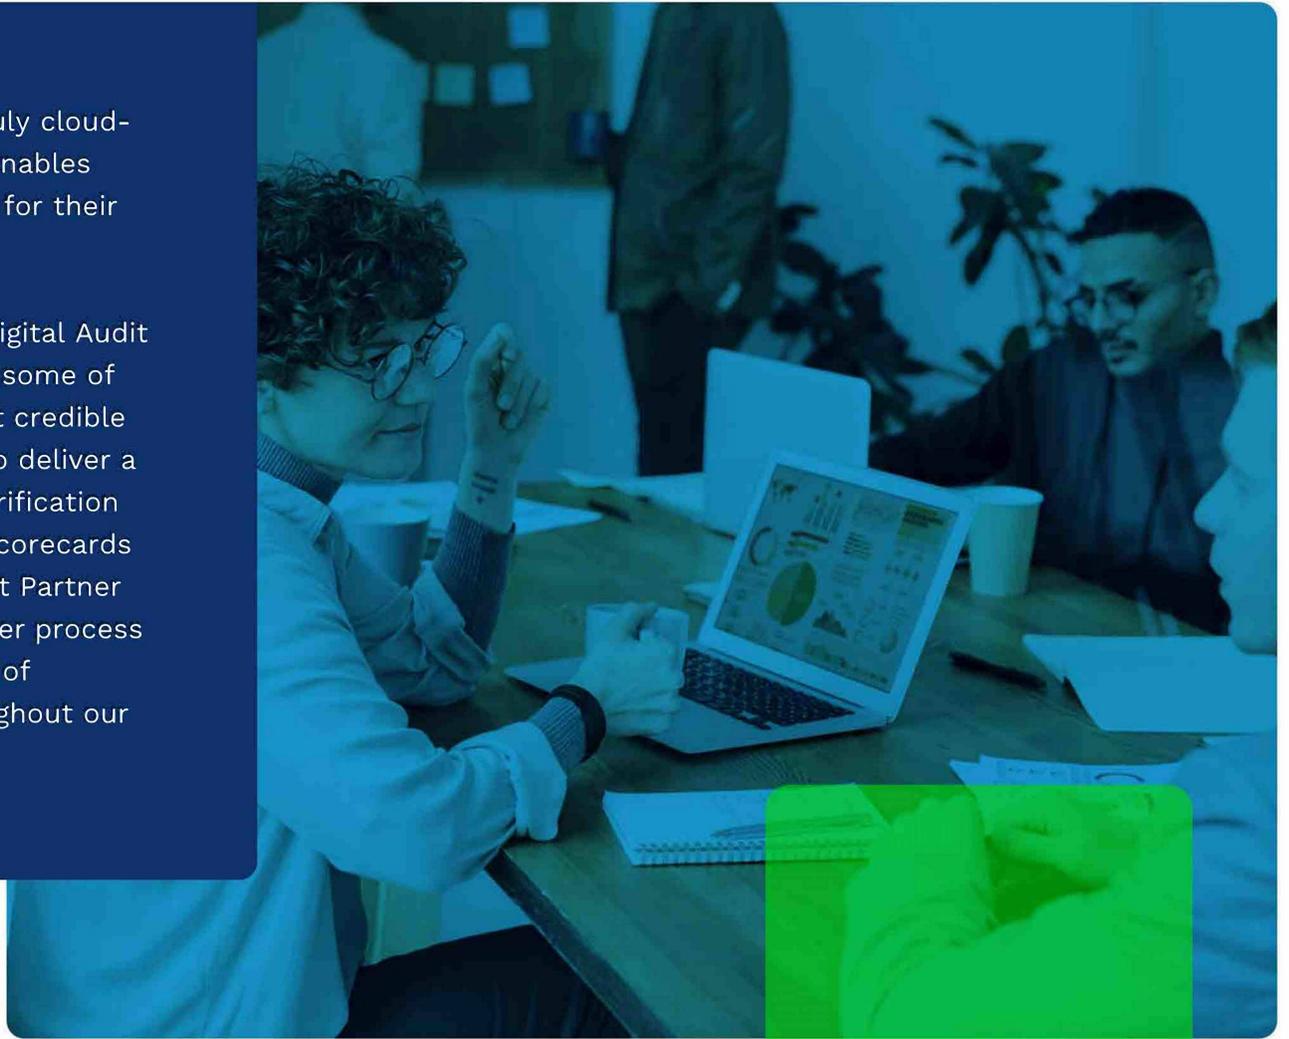

Mpowered automatically pulls supplier B-BBEE compliance information directly from the country's leading B-BBEE scorecard database, Beagle.
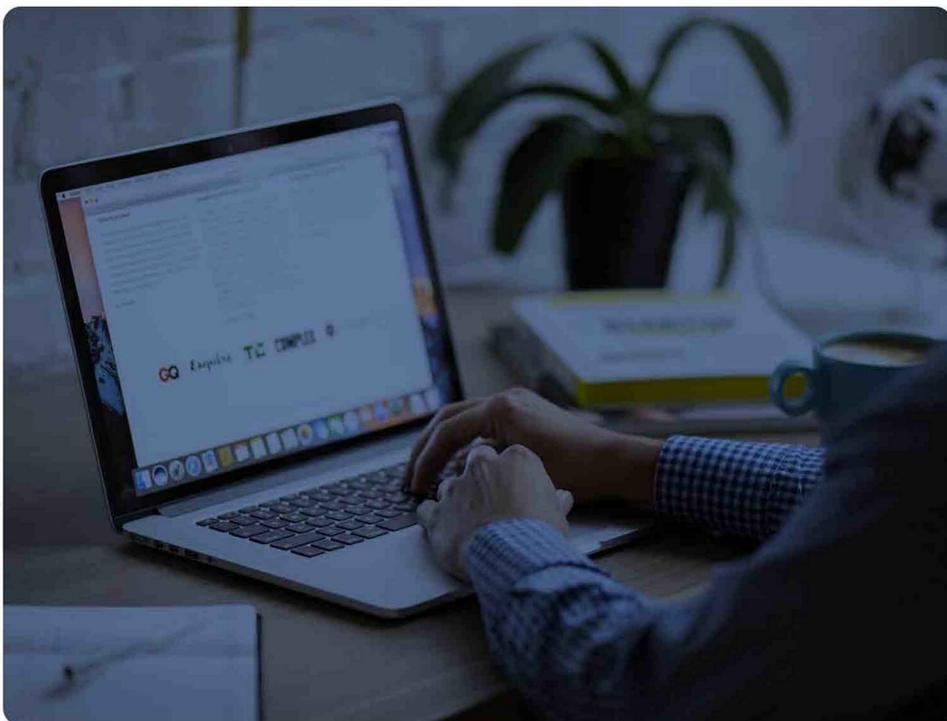

Mpowered

DIGITAL B-BBEE SCORECARD VERIFICATION

Mpowered delivers the only truly cloud-based software solution that enables companies to digitally prepare for their B-BBEE scorecard verification.

Mpowered has established a Digital Audit Partner program incorporating some of the country's leading and most credible B-BBEE verification agencies to deliver a simplified, digital scorecard verification process. Data, evidence and scorecards are submitted to a Digital Audit Partner for a highly simplified hand-over process that improves the consistency of scorecard interpretation throughout our client's compliance process.

WE SIMPLIFY B-BBEE TO REDUCE THE TOTAL COST OF COMPLIANCE

Enjoy the benefits of an integrated solution for managing your B-BBEE compliance journey, from collating source data (from Sage and other specialist HR, Skills and Finance software) right through to and including a digital B-BBEE scorecard audit.

Implement a solution that allows data to flow from source systems directly into B-BBEE software with limited or no human intervention ensuring data is secure, complete, accurate and consistently applied throughout a company's B-BBEE compliance journey.

Leverage B-BBEE derived data to produce powerful B-BBEE and HR analytics and insights, empowering you to make more-informed strategic and operational decisions using Mpowered Analytics.

Experience an end-to-end B-BBEE compliance management solution with on-demand access to some of the country's leading B-BBEE specialists, service providers and verification agencies.
